The book fair display will include attractive new books from many publishers in all popular price ranges—wonderful books to read or to give as gifts. All reading interests will be represented, including classics, fiction, biographies, adventure stories, science, nature, crafts, mystery and reference books. The committee is working with Educational Reading Service, a professional book fair company, to furnish an individual selection of books for the fair.

Miss Linda Gilbert, president of the Library Club, which is sponsoring this event, cordially invites all faculty, students, parents and visitors to attend the fair.

Mrs. Carlos Smith, Milford, Conn., is a patient at the Milford hospital.

The Albany Pioneers 4-H Club held their meeting Thursday afternoon (Nov. 19) at the home of their leader, Roberta Anderson. They repeated the club pledge, flag salute and sang the club song. They made "space men" and wreath decorations and drew names for a Christmas party at their next meeting.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

As the year progresses, with only this month left before our books close for 1970, the outlook appears very encouraging for next year. It is still too soon to say just what we will have to request for appropriations but indications are at this time the most of the increases can be offset with decreases. There will, no doubt, be some overall increase due, for the most part to highway maintenance. This, I believe is understandable and justified as we are faced with increased costs in a department that, from the nature of the work is more expensive each year but has provided services without requiring additional money for the last few years except for the unusual winter of 1969-70 when there was a considerable supplement made for snow removal. Preliminary figures will be presented to the selectmen at their meeting Dec. 14. This should give the Budget Committee a chance to start meeting this month so they can have ample time to review the proposals.

GREENWOOD CITY

Mrs. Celista Morgan, Corrae. — This morning I stood on my little brown knoll beside my pond and enjoyed the mild November day. There was a fresh wind from the westward, veering slightly to the north.

No longer do the ducks come in beyond the gray horizon; those hardy little adventurers to whom the threat of snowfall is at times a pleasing jest.

The pond danced, rustling its rushes and decking itself with tips of white.

From this same spot but a short time ago I heard the trumpet of the geese, brazen and wonderful, one of the best and bravest birds of all. They are so masterful, those wayfarers of the air, timing their voices, strong and resonant so that it seems that no two call at the same time.

Beyond the blue water lie the trees waving fiercely their battle of life, root contending with root for the food of the earth and branch with branch for the light which means life. Some grow so close together that only at the top is there light and air; so the growth is ever upward. They are beautiful in all seasons. In summer they stand lovely and cool with the aromatic scent

of pine, spruce, and hemlock filling the air.

The pale flowers carpet the forest floor among the wood sorrel, bunch berries and trilliums. Up above the brilliant blue of heaven's bowl peeks through. In a clearing the air, hot and dry, is still imprisoned. Here is released the scent of sweet ferns.

In a rain the trees drip quietly and perhaps the tops are shrouded in mist.

Autumn brings to these same trees incredible change for the blanket of green can change overnight. Then they wear their dresses of orange, russet, crimson, or gold accented with dark featherings of evergreen.

In the foreground our pond gives forth its sparkle across its dress of indigo blue, with its trimmings of eiders and goldenrod.

The full burnished moon looks down over all. Mornings bring signs of hoarfrost and puddles of water patterned with a skin of ice.

Soon there will be another change. The leafless trees will be concealed with garlands of white. There will be a glittering new world with linden shadows arched by a winter sky. All will be new to the ear and the eye.

Then I hope to again take my snowshoes and venture to those swamps where at other times I do not go. In the great stillness I'll hear the snapping of the branch, loud and sharp, the crackle of the undergrowth or the dropping of the pine cone.

So in our Maine we find many different days, those that are brilliant and flawless when there are a million acres of diamonds. Those with the howl of the north east storm driving sheets of rain or snow and fog when the world is scarcely visible. Then again the cloud line rises and falls and we watch idly, conscious of the warm sun on our backs and there's the chirp of the cricket in the field.

So whether it's a season of staggering numbers of intense growth of life in the pond, the white pine growing from its stately elevation,

rushing sheets of rain, blowing snow, brilliant skies you'll find it in Maine.

An accompanying passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy reads: "Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress."

The Lesson Service topic is "God the Only Cause and Creator." Every one is invited to services at First Church of Christ, Scientist, Main

CARD OF THANKS

Many cards expressing wishes for a speedy recovery have been received at our home here in Wheaton, Illinois. Some of them were read to me as I lay in darkness in the hospital following the accident in which a 54-inch nail pierced through my right eye. The cards were mostly from friends whom we left behind in Bethel and vicinity. You can imagine how encouraging it was to be loved by those whom we love. Instead of miserable thoughts of possible blindness, I found myself thinking of and visualizing familiar people and places. Thanks to everyone back home in Maine!

With Thanksgiving,
George Stebbins

LETTER TO THE EDITOR

To the Editor:

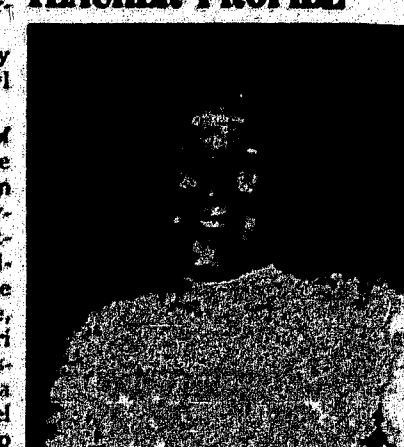

Under the date of Nov. 17, 1969 last year S. A. D. #44 furnished Gilead with a worksheet estimating school costs of the 1969-70 school year. There in was stated the State average cost per pupil for secondary schools—\$643.88. By virtue of the enabling statute (R. S. 1964, Sec. 1291, amended by the Public Laws of Maine, 1965, 1967, 1969) S. A. D. #44 took 115% of said average to reach a total of \$740.46. Sec. 1291 limits the tuition charge based on the State average cost for tuition-paying towns to this 115%; and Sec. 1292 allows, as an "insured value factor" a maximum of \$75.00 per pupil to be added to the said tuition charge. Therefore, the total sum of \$815.46 was the legal and authorized tuition charge for Gilead to pay for each of its nine pupils—not the \$926.35 first requested, nor even the \$868.41 Gilead eventually paid. Last year Gilead paid \$476.55 in extra, unauthorized and (since Gilead voters in a Town Meeting did not vote to authorize it) therefore, illegal tuition charge. In its worksheet S. A. D. #44 took 132% of the state average before adding the insured value factor of \$75.00. This is clearly in excess of the limit provided by the Statute in the aforesaid Sec. 1291.

For the present year the allowable tuition charge for 1969-70 becomes important because the Legislature in special session, January 6 to Feb. 7, 1970 in Special Acts and Resolves (Chapt. 589) amended the aforesaid Sec. 1291: "The annual tuition charge for any school is limited to 115% of the allowable tuition charge of the previous year, or the actual per pupil cost of the school, including the insured value factor for the current fiscal year, whichever is lower." Last year the allowable tuition charge, including the insured value factor was \$815.46. The allowable tuition charge for the 1970-71 fiscal year is, therefore, \$937.78, rather than the \$999.17 sought by S. A. D. #44. For 12 pupils it is a matter of \$736.63 for unauthorized tuition. Adding the aforesaid illegal charge of \$476.55 the total for both years comes to \$1,213.33.

It may be of interest to Bethel readers to note that the said S. A. D. #44 worksheet listed S.A.D.'s reporting per pupil costs. S. A. D. #44 was highest with \$1,577.76, while S. A. D. #49 was lowest with \$595.63. Presumably S. A. D. #49 also lives with inflation. Also, of 53 reporting S. A. D. #4 for elementary per pupil cost S. A. D. #44 was the 5th highest with \$486.11. Some may prefer to call this extra expense a greater educational effort. Gilead readers may be interested to learn that had Gilead been a member of S. A. D. #44 a year ago its secondary school cost would probably have been \$11,094.74 rather than the \$7,819.56 charged, or the legal tuition of \$7,343.01 due.

By virtue of law Gilead has always paid a share of the salary of the Superintendent of Schools, who is secretary ex officio of the School

Committee. A series of superintendents in recent years have drawn their pay with an ample allowance for office help and in return made out the school warrants and offered poor advice. It seems a shame that private citizens sometimes feel called upon to write the State Dept. of Education to correct the mistakes a little time and effort could avoid.

LOOK WHO'S IN THE MIDDLE OF THINGS

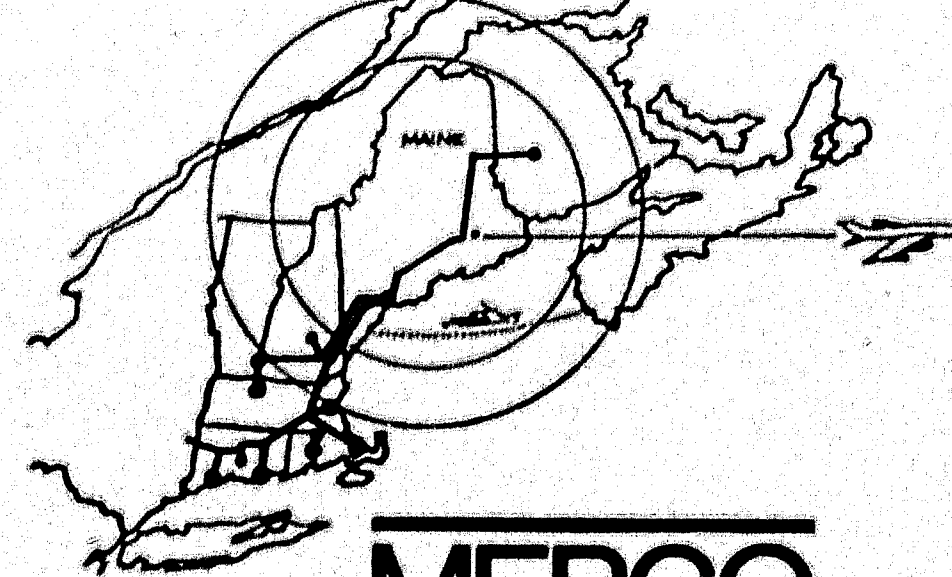

BIG things happen in Maine. Like the new 345,000 volt transmission line linking Maine and New England with Eastern Canada. The international tie line is the first energized at that extra-high voltage in Maine and on a regional basis is the first major interconnection with Eastern Canada. Already completed and operating from a substation near Fredericton, New Brunswick, to Orrington, near Bangor, Maine, the line next summer will extend to Wiscasset and there connect with the Big 11 Plus New England Power network.

Maine is no longer at the end of the power line but in the enviable position between two major and growing power pools, thanks to assistance provided by the Maine Public Utilities Commission and Federal Power Commission in helping to bring the project to completion.

Maine and New England now will benefit through economies of bulk power interchange and availability of emergency power in both directions with increased reliability of service.

Or, like the 855,000 kilowatt Maine Yankee Atomic Power Company nuclear generating station at coastal Wiscasset. Largest project in Maine history, the plant is on schedule to provide needed power for Maine and New England in 1972.

We are proud of our role in helping to make some of these big things happen in Maine.

WHAT IS A "WANT BOOK"?
Did you ever wonder how a pharmacy is able to keep up with the thousands of different items it must keep on hand for its customers? We have a special book, called the want book, and any time someone sells a product and sees that the stock of that product is running low they enter it in the daily "want book".

At least once a day we contact the drug wholesaler, and have the products we need delivered immediately, usually on that same day. In this way we are rarely out-of-stock of any item, whether it be a prescription drug or one of the many other health aids we carry.

YOU OR YOUR DOCTOR CAN PHONE US when you need a delivery. We will deliver without extra charge. A great many people rely on us for their health needs. We welcome requests for delivery service and charge accounts.

NOTICE — For your convenience, you may now pay your Central Maine Power Co. bills at Clayton's Pharmacy.

"PHOEBE SNOW" EXPLAINED

Last week information was requested on the origin of "Phoebe Snow" in connection with the Lackawanna Railroad.

The following information was supplied by an interested reader. The Lackawanna Railroad used anthracite coal as fuel while other roads used the more dusty bituminous variety. "Land of the Phoebe Snow" was selected as a slogan for the road, signifying that the white-clad maiden could travel the Lackawanna without her clothes being soiled by soft-coal dust. "Phoebe Snow" was created by an advertising man and wasn't an actual person.
